ABOUT ME

Dedicated Software Engineer with 2 Years of Experience in ASP.NET Core, C#, Java, C++, and SQL committed to delivering high-quality and high-performance backend solutions using Agile Scrum. As a Junior IT Analyst, I excel in bridging the gap between technical and business requirements, ensuring alignment with project goals and end-user needs. I possess a good understanding of system analysis and design, coupled with a knack for identifying and solving complex IT challenges. Well-versed in modern testing frameworks, with a focus on unit and automation testing. Possesses good knowledge of cloud solutions, especially Azure DevOps. Collaboration and teamwork are crucial qualities I bring to the team, demonstrating adaptability and competence in dynamic development environments.
